RE: MOD007152903

Dear Mr. Dow:

LETTER OF WARNING

If your facility was operating under a Resource Conservation and Recovery Act (RCRA) identification number during 1981, you were required by 40 CFR Parts 262.41 and 264.75 to complete an annual report covering your activities in hazardous waste management for that year, and to file that report with this office. The deadline for filing was January 10, 1983. In subsequent years, the report will be submitted biennially by March 1.

Our records show that in 1981 this facility was registered as a generator and treatment, storage and disposal facility and that we did not receive an annual report from you. In order for you to be in compliance with these Federal regulations, you must submit your 1981 annual report, non-regulated status schedule or other explanation of your 1981 hazardous waste activities within 15 days from receipt of this letter. We have enclosed the necessary forms and instructions.

If your status changed after 1981, you must still respond relative to your status during 1981.

While you are preparing your annual report, you may wish to consider whether your current registration status in the program is correct, in that it reflects your present waste management practices. Please review your records, and if you wish to change your status, complete and return the enclosed notification.

Failure to submit the annual report for your facility in 1981 within 15 days of receipt of this Letter of Warning may result in more formal enforcement action and substantial penalties. A return envelope is enclosed for your convenience.

If you have any questions about this, or about the annual report, please call Mrs. Betti Harris of my staff at 816-374-6534.

Please give this matter your immediate attention.
